Product Requirements Document

E-Commerce Website — Brand Identity, Design System & Full UI Build Prompts

Version 1.0 | Nairobi, Kenya | 2026

1. Brand Overview

1.1 Who Is Shop Hellous?

Shop Hellous — a playful derivation of "Hello Us" — is a Kenyan fashion brand specialising in high-quality matching outfits for mothers and daughters. Founded by a mother inspired by her own daughter, the brand celebrates the bond between them through elegantly designed, made-to-order apparel. Every piece is crafted in-house from premium natural fabrics and delivered within 48 hours of order.

1.2 Mission

"To celebrate and strengthen the bond between mothers and daughters through exquisitely designed, high-quality matching fashion — made exclusively for you, ready within 48 hours."

1.3 Tagline

Mommy & Me Fashion | Timeless Women's Sets

1.4 Core Values

Value	Description
Togetherness	Fostering connection through coordinated, matching fashion that tells a shared story.
Quality & Craft	Premium materials — 100% linen, heavy cotton — with meticulous in-house production.
Inclusivity	A diverse, generous size range so every mother finds her perfect fit.
Exclusivity	Made-to-order pieces custom-crafted to exact measurements, never mass-produced.

1.5 Target Audience

Segment	Profile
Primary	Mothers (25–40) with young daughters, seeking stylish co-ordinated outfits for occasions, photoshoots, or everyday elegance. Urban professionals, Nairobi-based and diaspora.
Secondary	Women (22–38) who appreciate standalone timeless pieces with a coastal, vintage, and classy aesthetic.

1.6 Key Product Differentiators

- Signature tie-up shoulder straps and classic puff sleeves on every hero piece
- 100% linen and premium heavy cotton — raw, earthy, built for longevity
- Made-to-order within 48 hours — never over-produced, always exact to your measurements
- Dual sizing: Maxi (mother) from KSh 8,999 | Mini (daughter) from KSh 7,499 | Premium linen from KSh 12,000
- WhatsApp-first customer support (+254 746 704 132) and Instagram community (@shophellous)

2. Brand Identity & Design System

2.1 Visual Aesthetic

The Shop Hellous visual identity is defined by vintage warmth meeting modern precision. Think soft morning light on linen, gathered skirts, and the quiet elegance of mothers and daughters sharing a moment. The design system communicates premium quality without ostentation — approachable luxury for the contemporary Kenyan woman.

2.2 Color Palette

PRIMARY & SECONDARY BRAND COLORS

Swatch	Name	Hex	Role	Mood
	Blush Pink	*#F8C8D4*	Primary Brand Accent	Soft, feminine, welcoming
	Sand Beige	*#F5F0E8*	Primary Neutral / Background	Warm, vintage, timeless
	Crisp Cream	*#FAFAFA*	Secondary Neutral	Clean, premium, airy
	Ruby Red	*#9B1C1C*	Bold Accent	Passion, statement, depth
	Polka Blue	*#0047AB*	Classic Accent / Pattern	Sophisticated, playful
	Charcoal	*#333333*	Typography & Contrast	Modern, readable, grounded

2.3 Typography

Role	Font Family	Weight / Style	Usage
Display / Headings	Playfair Display	Regular, Bold, Bold Italic	Hero text, section headings, editorial pull-quotes
UI / Body	Inter	300, 400, 500, 600	Navigation, product details, buttons, body copy
Accent / Labels	Montserrat	400, 600 (Uppercase)	Category labels, badges, tags, price display

2.4 Logo Concept

A minimalist logotype rendered in Playfair Display. The wordmark reads “Hello Us” — the ‘o’ in ‘Hello’ carries a subtle heart or infinity loop to communicate the mother-daughter bond. Presented in Charcoal (#333333) on light backgrounds; reversed to Blush Pink (#F8C8D4) on dark or photographic backgrounds.

- Monogram variant: “HU” in refined serif for favicon, packaging, and social avatar
- Avoid drop-shadows, gradients, or heavy fills — keep it architectural and clean

2.5 Imagery Direction

- Natural, warm lighting — golden hour and studio-soft, never harsh flash
- Earthy, textured settings: linen tablecloths, rattan furniture, terracotta walls, Nairobi greenery
- Close-up fabric hero shots: weave texture of linen, gathers, puff sleeve details
- Lifestyle: genuine mother-daughter moments — not posed stock photography
- Always show the Maxi and Mini pieces together in the same frame for Mommy & Me sets

2.6 Brand Voice

- Warm and intimate — like a trusted friend who happens to have impeccable taste
- Graceful, never boastful — quality speaks through craft, not superlatives
- Celebratory of womanhood, motherhood, and heritage
- Direct in commerce (pricing, sizes, turnaround) — no unnecessary friction

3. Technical Architecture

3.1 Core Stack

Layer	Technology	Purpose
Framework	Next.js 14 (App Router)	SSR, ISR for product pages, route-based code splitting
Styling	Tailwind CSS v3	Utility-first design tokens mapped to brand palette
Animation	Framer Motion 11	Scroll-triggered sequences, 3D parallax, page transitions
3D / WebGL	React Three Fiber + Drei	3D product renders, hero floating elements
Auth	Clerk	Email / Google / Apple sign-in, user profiles, order history
Backend / DB	Convex	Real-time cart state, orders, product catalogue
Payments	M-Pesa Daraja API + Stripe	Local M-Pesa STK push + card payments for diaspora
Deployment	Vercel	Edge network, preview deployments, analytics
SMS / Notify	Africa's Talking	Order confirmations, 48-hr production alerts via SMS

3.2 Design Principles

- Apple-inspired: whitespace-first, typography-led, motion with purpose
- Mobile-first — Kenyan shoppers are primarily on mobile; every interaction optimised for thumb reach
- Performance: Core Web Vitals target LCP < 2.5s; lazy-load all images with blur placeholders
- Accessibility: WCAG 2.1 AA minimum — adequate contrast, focus states, keyboard navigation

4. Global UI Components

4.1 Navigation Bar

PROMPT — Global Navigation Component

Act as an expert Next.js and Tailwind CSS developer. Build a global sticky navigation bar for the "Shop Hellous" e-commerce store.VISUAL SPEC:- Default state: fully transparent with white/light text, sitting on top of the hero- Scroll trigger (>60px): applies a glass-morphism background — backdrop-filter: blur(20px), bg-white/80, with a 1px bottom border in Blush Pink (#F8C8D4)- Logo: "Hello Us" wordmark in Playfair Display, centered on mobile, left-aligned on desktop; Charcoal (#333333)- Nav links (desktop): "Collections", "About", "Contact" — Inter 14px, font-weight 400, with a soft underline-slide hover animation in Blush Pink- Right cluster: Clerk <UserButton>, search icon, cart icon (Framer Motion badge counter that springs into view when cart count > 0)- Cart icon click: triggers a right-side Framer Motion drawer (AnimatePresence, x: "100%") with the slide-out cart- Mobile: hamburger icon → full-screen overlay menu with staggered Framer Motion entrance per linkBEHAVIOUR:- Hide on scroll-down, reappear on scroll-up (classic Apple-style smart nav)- Smooth height transition between transparent and blur states using Framer Motion layoutId

4.2 Cart Drawer

PROMPT — Slide-Out Cart Drawer

Build a right-side slide-out cart drawer using Framer Motion AnimatePresence.VISUAL SPEC:- Width: 420px desktop / 100vw mobile- Background: Crisp Cream (#FAFAFA) with Blush Pink top accent bar (4px)- Framer Motion: initial={{ x: "100%" }}, animate={{ x: 0 }}, exit={{ x: "100%" }}, transition: spring(damping: 25, stiffness: 200)- Line items: product thumbnail (rounded-lg), product name (Inter 500 14px), size/variant, quantity stepper (+/-), price in Charcoal bold — all updating in real-time via Convex- Order summary: subtotal, shipping estimate, prominent CTA button "Proceed to Checkout" — full-width, Charcoal background, white text, hover state shifts to Blush Pink- Below CTA: small trust badges — "Made in 48hrs", "Secure Checkout", WhatsApp icon + "Chat with us"- Empty state: centered heart illustration, copy "Your cart is empty — let's fix that", link to Collections

4.3 Footer

PROMPT — Global Footer

Build the site-wide footer for Shop Hellous.VISUAL SPEC:- Background: Charcoal (#333333), text in Sand Beige (#F5F0E8) and white- Top row: "Hello Us" logo (reversed, Blush Pink) + tagline "Mommy & Me Fashion | Timeless Women's Sets"- Middle row (3 columns): Shop (links: Collections, New Arrivals, About), Support (Sizing Guide, Order Tracking, FAQ, Contact), Follow Us (Instagram @shophellous icon + WhatsApp +254 746 704 132)- Bottom row: copyright, Privacy Policy, Terms — Inter 12px, muted- Subtle top border: 1px Blush Pink- Mobile: stacks to single column with accordion disclosure per column

5. Page-by-Page UI Build Prompts

5.1 Landing Page (Homepage)

Concept: A cinematic, Apple-calibre immersive experience. Every scroll reveals a new world. The page sells the feeling of the brand before it sells a product.

Section A — Hero

PROMPT — Hero Section (3D + Scroll Animation)

Build the hero section for the Shop Hellous landing page using Next.js, React Three Fiber, and Framer Motion.CONCEPT: A soft, immersive full-screen scene that immediately communicates "Mommy & Me" and premium quality.VISUAL SPEC:- Full viewport height (100dvh)- Background: a radial gradient from Blush Pink (#F8C8D4) at center to Sand Beige (#F5F0E8) at edges — no photography here, let the 3D carry it- 3D element (React Three Fiber): a floating, softly-lit linen dress (use a simplified cloth-like mesh or imported GLTF if available) that gently sways with a looping sine-wave animation on its Y and Z rotation. Apply a soft pink-toned matcap or physical material. Cast a subtle drop shadow onto an invisible ground plane.- As the user begins to scroll (useScroll, useTransform), the 3D element scales from 0.6 to 1.2 and rotates to face the viewer, transitioning the scene into the product showcase below.- Text overlay: "Hello Us" in Playfair Display 80px bold, centered, Charcoal — fades in on mount with Framer Motion (opacity 0→1, y: 30→0, delay 0.4s)- Subheading: "Mommy & Me Fashion | Timeless Women's Sets" — Inter 18px, lighter weight, fades in delay 0.7s- CTA Button: "Shop the Collection" — rounded-full, Charcoal background, Sand Beige text, hover scales to 1.05, active press scales to 0.97 (Framer Motion whileHover / whileTap)- Scroll indicator: "Scroll to explore" with a gentle bouncing chevron-down icon at bottom center, fades out when user scrolls past 100px

Section B — Fabric Parallax

PROMPT — Fabric Parallax Section

Build a scroll-triggered 3D parallax section using Framer Motion useScroll + useTransform.VISUAL SPEC:- Full-width section, min-height 100vh, background Crisp Cream (#FAFAFA)- Three large (full-bleed) high-res fabric texture images (linen close-up, gathered skirt detail, puff sleeve detail) arranged at different depths- As the user scrolls through this section, each image layer translates on the Y axis at different rates (layer 1: y * 0.5, layer 2: y * 0.3, layer 3: y * 0.1) creating a true parallax depth effect- Each image also scales subtly (scale: 1.0 → 1.08) as it enters the viewport using IntersectionObserver + Framer Motion- Text elements float above: "Crafted from 100% Linen" and "Made to Order in 48 Hours" — Playfair Display 48px, with a word-by-word stagger animation (each word: opacity 0→1, y: 20→0, stagger 0.08s)- Small label tags appear near the image details: "Puff Sleeve", "Tie Strap", "Gathered Skirt" — Inter 12px uppercase, Blush Pink background, Charcoal text, like Apple product callout lines

Section C — Category Teasers

PROMPT — Category Teasers with Staggered Entrance

Build the category teaser section for the homepage.VISUAL SPEC:- Two large cards side by side (desktop) / stacked (mobile): Card 1: "Mommy & Me" — background: a warm lifestyle image of mother + daughter; overlay: dark gradient from bottom; Playfair Display "Mommy & Me" white 40px; Inter "Shop Sets" button Card 2: "Timeless Women's Sets" — background: elegant close-up of a woman in a linen dress; same treatment- Cards are 50/50 split on desktop, each 60vh tall- Framer Motion entrance: whileInView={{ opacity: 1, y: 0 }}, initial={{ opacity: 0, y: 60 }}, stagger 0.2s between cards, viewport once- On hover: image scale to 1.05 (transition: 0.6s ease-out), overlay darkens slightly, CTA button slides up 8px- Mobile: vertical stack, each card 55vw tall

Section D — Brand Story Teaser

PROMPT — Brand Story Section

Build the homepage brand story section.VISUAL SPEC:- Background colour transition: Sand Beige (#F5F0E8) — use a CSS scroll-driven or Framer Motion background colour morph as this section enters- Left column (60%): large editorial image — mother and daughter in matching linen sets, natural setting, warm light- Right column (40%): story text block - Small label: "OUR STORY" — Montserrat 12px uppercase, Blush Pink - Heading: "Born from a Mother's Love" — Playfair Display 36px Bold - Body: 2-3 sentences about founding, made-to-order ethos — Inter 16px, line-height 1.8 - CTA: "Read Our Story" — underline-style link, Charcoal, hover colour shifts to Blush Pink- Text elements animate in from right (x: 40→0, opacity 0→1) as image animates in from left — triggered by IntersectionObserver- Image has a subtle warm vignette overlay and a rounded-xl corner radius

Section E — Social Proof / Testimonials

PROMPT — Customer Testimonials Carousel

Build a testimonials carousel for the homepage.VISUAL SPEC:- Background: Crisp Cream (#FAFAFA)- Section heading: "What Our Mothers Say" — Playfair Display 36px, centered- Carousel: 3 cards visible on desktop / 1 on mobile, free-scroll with momentum using Framer Motion drag constraints- Each card: Blush Pink (#F8C8D4) top accent bar (4px), white background, subtle shadow (box-shadow: 0 4px 24px rgba(248,200,212,0.3)) - 5-star rating (gold stars, Inter 12px) - Quote: Playfair Display italic 18px — "The linen set arrived in exactly 48 hours and the quality is stunning. My daughter and I got so many compliments." - Customer name: Inter 500 14px, Charcoal - Small "Verified Purchase" badge- Auto-plays every 5 seconds, pauses on hover- Pagination dots below: Blush Pink active, grey inactive

Section F — Instagram Feed Strip

PROMPT — Instagram Social Feed

Build an Instagram feed strip section for the homepage.VISUAL SPEC:- Section heading: "@shophellous on Instagram" — Playfair Display 28px + Instagram icon- Horizontal scrollable strip of 8 square images (160px each on mobile, 240px on desktop)- Each image: rounded-xl, hover scales

to 1.06 with a soft Blush Pink overlay showing a heart icon- Last tile: a "Follow us" call-to-action tile — Charcoal background, Instagram icon + "@shophellous" + "Follow" button in Blush Pink- All images load with a shimmer skeleton placeholder before actual images resolve- Framer Motion stagger entrance: each tile fades and slides up (y: 20→0) with 0.06s stagger

---

5.2 Shop / Collections Page

Concept: An elegant, editorial product grid. Browsable, filterable, and delightful — with micro-animations on every interaction.

PROMPT — Full Collections Page

Build the main Shop / Collections page for Shop Hellous using Next.js App Router, Tailwind CSS, and Framer Motion.LAYOUT SPEC:- Page header: full-width banner — Sand Beige background, centered Playfair Display "Our Collections" 56px, Inter subheading "Made to Order. Ready in 48 Hours."- Below banner: sticky filter bar (top: 0, z-index 40) — glass-morphism background, backdrop-filter blurFILTER BAR:- Filter chips: "All", "Mommy & Me", "Maxi Sets", "Mini Sets", "Linen Collection", "New Arrivals"- Active chip: Charcoal background + white text; inactive: white background + Charcoal text + Blush Pink border- Chip click: Framer Motion layoutId shared between chips for a smooth background slide transition (like Apple's segmented control)- Sort dropdown: "Sort by: Featured / Price: Low-High / Price: High-Low / Newest" — Inter 14pxPRODUCT GRID:- 3 columns desktop / 2 columns tablet / 1 column mobile- Masonry-style staggered heights (not uniform grid)- Framer Motion grid entrance: stagger 0.05s per card, y: 30→0, opacity 0→1PRODUCT CARD:- Image area: aspect-ratio 3/4, object-fit cover, rounded-xl overflow hidden- On hover (desktop): primary image cross-fades to lifestyle shot (mother+daughter wearing the piece) using Framer Motion opacity crossfade at 0.4s; card lifts with box-shadow transition- On hover: "Quick Add" button slides up from bottom of image — full-width, Charcoal background, Blush Pink text, font Inter 13px uppercase — using Framer Motion (y: 40→0, opacity 0→1)- Below image: product name (Inter 500 15px), collection tag (Montserrat 11px uppercase, Blush Pink), price display "From KSh 8,999" (Inter 600 16px Charcoal)- Wishlist icon (top-right of image): heart, toggles filled/unfilled with a Framer Motion spring scale popLOADING STATE:- Skeleton cards: rounded-xl, animated shimmer gradient (Sand Beige → lighter Beige → Sand Beige) during data fetch

---

5.3 Product Detail Page (PDP)

Concept: An immersive, conversion-optimised product page that communicates craft and exclusivity. The 48-hour made-to-order promise is front and centre.

PROMPT — Product Detail Page

Build the Product Detail Page (PDP) for Shop Hellous using Next.js, Tailwind CSS, and Framer Motion.LEFT COLUMN — IMAGE GALLERY (sticky, desktop):- Main image: large, rounded-xl,

aspect 4/5- Scroll-snap thumbnail strip below (vertical on desktop, horizontal on mobile)- Click thumbnail: main image cross-fades with Framer Motion (AnimatePresence, opacity 0→1, duration 0.3s)- Zoom: on hover, main image scales to 1.5x and follows cursor (CSS transform perspective + translate)- Badge overlays on main image: "Maxi" or "Mini" pill (Charcoal bg, white text) top-left; "48hr Production" pill (Blush Pink bg, Charcoal) top-rightRIGHT COLUMN — PRODUCT INFO:- Breadcrumb: Inter 12px — Home > Collections > [Product Name]- Product name: Playfair Display 36px Bold- Collection tag: Montserrat 12px uppercase, Blush Pink, spaced tracking- Price section: "Maxi — KSh 8,999" and "Mini — KSh 7,499" displayed as two clear rows (Inter 600 18px); "Linen variant from KSh 12,000" shown as a tertiary row- Star rating + "(12 reviews)" linkSIZE CUSTOMISATION (key differentiator):- Section heading: "Your Custom Size" (Inter 500 14px)- Instead of a dropdown, show a row of size suggestion chips (Size 8, 10, 12, 14, 16, 18, 20+) for quick selection- Below chips: "Need a custom fit? Enter your measurements" link that expands a Framer Motion accordion revealing input fields: Bust, Waist, Hips, Height — each with a label, placeholder (e.g., "e.g. 36 inches"), and a small info icon- Measurement guide link opens a modal with a simple illustrated body measurement diagramPRODUCTION BADGE:- Prominent badge (full-width, Blush Pink background, rounded-xl): clock icon + "Made to Order: Ready in 48 Hours" (Inter 600 15px Charcoal) + "Custom-crafted exclusively for you" (Inter 400 13px)ACCORDION DETAILS:- "Signature Details" — tie straps, puff sleeves, gathered skirt description- "Materials" — 100% linen / premium heavy cotton details, care instructions- "Sizing & Fit" — guide to choosing Maxi vs Mini, measurement adviceAll accordions use Framer Motion height animation (overflow hidden, height: 0 → auto)ADD TO CART / BUY NOW:- "Add to Cart" — full-width, rounded-full, Charcoal background, white text, hover: Blush Pink shift, Framer Motion whileTap scale 0.97- "Buy Now" — full-width, outlined (Charcoal border, transparent bg), white text on dark hover- Below CTAs: WhatsApp inquiry button — green (#25D366) icon + "Chat with us on WhatsApp"MAKE IT A MATCH:- Below CTAs: "Complete the Set" section — showing the matching piece (Maxi or Mini counterpart) in a compact horizontal card with image, name, price, and an "Add to Cart" — this is a key cross-sell featureREVIEWS:- Section: "What Mothers Are Saying" — star breakdown bar chart (CSS), then scrollable review cards- Each card: reviewer name, date, star rating, photo of dress if available, review text

---

5.4 Cart & Checkout Flow

Concept: Frictionless, localised, and reassuring. The checkout must make M-Pesa feel as premium as card payment, and the success screen should feel like a celebration.

PROMPT — Multi-Step Checkout Page

Build the checkout flow for Shop Hellous. This is a multi-step page (not a drawer) with three stages.STEP INDICATOR (top of page):- Three numbered steps: 1 Shipping, 2 Payment, 3 Confirmation- Active step: Charcoal circle + white number; completed step: Blush Pink circle + checkmark; upcoming: grey- Framer Motion progress bar slides between steps with layoutId shared animationSTEP 1 — SHIPPING:- Page heading: "Where should we send your order?" — Playfair Display 28px- Fields: Full Name, Phone Number (pre-filled from Clerk profile), Delivery Address, Town/City, Special Notes- Input style: minimal underline inputs (bottom-border only), focus state: Blush Pink border, label floats up (floating label pattern)- Nairobi delivery estimate: "Orders within Nairobi: Same-day or next-day delivery" info callout- CTA: "Continue to Payment" — full-width Charcoal buttonSTEP 2 — PAYMENT:- Heading: "How would you like to pay?" — Playfair Display 28px- Payment method selector: two large cards CARD 1 (M-Pesa — default selected): M-Pesa

logo, green accent border when selected, instructions: "We'll send an STK push to your M-Pesa number — enter your PIN when prompted." Input: M-Pesa phone number (pre-filled). Sub-label: "Works with Safaricom M-Pesa" — uses Daraja API for STK push CARD 2 (Card): Visa/Mastercard icons, standard card number / expiry / CVV fields with masked input- Both cards use Framer Motion border animation on selection (border-color transition + scale 1.02)- Order summary sidebar (desktop) or accordion (mobile): itemised list, subtotal, delivery, total — Convex real-time- CTA: "Place Order" — Charcoal, full-width, with a lock iconSTEP 3 — SUCCESS / CONFIRMATION:- Full-screen Framer Motion confetti burst — particles in Blush Pink (#F8C8D4), Sand Beige (#F5F0E8), and Charcoal (#333333); use a lightweight canvas or CSS-based confetti library- Center card: checkmark animation (SVG path draw) + "Order Confirmed!" (Playfair Display 42px) + "Your Hello Us set is being crafted. Ready in 48 hours." (Inter 16px)- Order number, summary table, WhatsApp button: "Track your order on WhatsApp"- CTA: "Continue Shopping" — back to Collections

---

5.5 About Us Page

Concept: A rich editorial storytelling page. Connect the customer emotionally to the brand before they ever add to cart.

PROMPT — About Us Page

Build the About Us page for Shop Hellous using Next.js and Framer Motion.HERO:- Full-width image banner: a heartwarming mother-daughter photograph (warm light, linen dresses)- Parallax: useScroll + useTransform — image translates at 0.4x scroll speed (background-attachment: fixed effect)- Overlay: soft dark gradient from bottom; centered text: "Our Story" — Playfair Display 64px Bold, whiteORIGIN STORY SECTION:- Alternating image-text blocks (zig-zag layout): Block 1: image left + text right — "Born from a Mother's Love" — story of the founder and daughter inspiration Block 2: text left + image right — "Made In-House, Made to Last" — production story, 48-hour commitment Block 3: image left + text right — "For Every Mother, Every Size" — inclusivity and sizing philosophy- Each block: text animates in from its respective side (x: ±40 → 0, opacity 0→1) via IntersectionObserver + Framer Motion- Images: warm vignette + rounded-2xl borderVALUES SECTION:- Four cards in a 2x2 grid (desktop) / vertical list (mobile)- Each card: large icon or illustration, value name (Playfair Display 20px), short description (Inter 15px)- Background: alternating Sand Beige and Crisp Cream- Entrance: whileInView stagger, y: 40→0, opacity 0→1, stagger 0.15sTEAM / FOUNDER SECTION:- Heading: "The Heart Behind Hello Us" — Playfair Display 32px- Founder card: large circular image, name, short quote in italic Playfair Display- CTA: "Shop Our Collections" + "Follow us @shophellous"

5.6 Contact / Get in Touch Page

PROMPT — Contact Page

Build the Contact page for Shop Hellous.VISUAL SPEC:- Background: Sand Beige (#F5F0E8)- Heading: "Get in Touch" — Playfair Display 48px, centered- Subheading: "We'd love to hear from

you. Reach us on WhatsApp for the fastest response." — Inter 16px, centeredCONTACT METHODS (3 cards, horizontal on desktop / vertical on mobile):- WhatsApp card: WhatsApp green icon (#25D366), "+254 746 704 132" — click to open WhatsApp chat, Blush Pink background- Instagram card: Instagram gradient icon, "@shophellous" — click opens Instagram profile, Sand Beige background- Email card: envelope icon, generic contact email, Crisp Cream backgroundEach card: rounded-2xl, subtle shadow, hover scale 1.04CONTACT FORM:- Below cards: optional contact form for non-WhatsApp users- Fields: Name, Email, Subject (dropdown: Order Inquiry / Custom Size / Returns / Other), Message- Inputs: floating label pattern, Blush Pink focus border- Submit button: "Send Message" — full-width, Charcoal background- Success state: Framer Motion check animation + "Message sent! We'll reply within 24 hours."SIZING GUIDE LINK:- Prominent banner below form: "Not sure about sizing? View our full size guide →" — Blush Pink background, Charcoal text

---

5.7 Account & Order History Page

PROMPT — User Account Dashboard

Build the user account dashboard page powered by Clerk auth and Convex real-time data.LAYOUT: Two-column (sidebar + main) on desktop, tab-based on mobile.SIDEBAR:- Clerk UserButton + user name and email- Nav links: My Orders, My Sizes, Wishlist, Settings- Active link: Blush Pink left-border accentMY ORDERS TAB:- List of past orders: order number, date, status badge ("In Production" — amber / "Delivered" — green / "Confirmed" — Blush Pink), item thumbnail + name, total price- "In Production" orders show a progress bar: Ordered → Crafting → Ready → Dispatched — using Framer Motion progress fill animation- CTA per order: "Track on WhatsApp" (green), "View Receipt"MY SIZES TAB:- Saved measurement fields (Bust, Waist, Hips, Height) — users can pre-fill these so future orders are one-click- Inline edit with Convex mutation, auto-saves on blur with a subtle "Saved" checkmark animationWISHLIST TAB:- Grid of saved products (same card as Shop page) with "Add to Cart" and "Remove" per card- Empty state: heart illustration + "Save pieces you love — tap the heart on any product"

6. Animation System Reference

All animations should feel purposeful and calm — never gratuitous. The benchmark is Apple.com product pages: motion reveals content, guides attention, and communicates quality.

Animation Type	Framer Motion Config	Used In	Notes
Page Mount	opacity: 0→1, y: 20→0, duration: 0.5s ease-out	All pages on load	Use AnimatePresence in layout.tsx
Scroll Reveal	whileInView, once: true, viewport: { margin: '-100px' }	Sections, cards, text blocks	Stagger children 0.05–0.1s apart
Parallax	useScroll + useTransform, translateY	Hero, About images, Fabric section	Range [-100px, 100px] typical
3D Hero Object	React Three Fiber, sine-wave animation loop on Y/Z rotation	Homepage hero	Scale on scroll via R3F camera or mesh scale uniform
Hover — Card	whileHover: { scale: 1.03, boxShadow }, transition: spring	Product cards, category teasers	Image crossfade via AnimatePresence opacity
Button Press	whileTap: { scale: 0.97 }	All CTA buttons	Keep spring stiffness: 400, damping: 17
Drawer / Modal	AnimatePresence, x: '100%'→0 (drawer) or scale: 0.95→1 (modal)	Cart drawer, size guide modal	Add backdrop fade behind modal
Accordion	height: 0 → 'auto', overflow hidden, ease-out 0.3s	Product details, FAQ	Use useMeasure hook for auto height
Confetti	Canvas-based particles, Blush Pink + Beige + Charcoal	Order success page	Use canvas-confetti or react-confetti library

7. M-Pesa Integration Specification

M-Pesa is the primary payment method for the Kenyan market and must be treated as a first-class citizen — not an afterthought. The STK Push flow should feel seamless and reassuring.

7.1 Flow Overview

1. Customer selects M-Pesa on checkout and confirms their Safaricom number
2. Frontend calls Next.js API route /api/payments/mpesa/stkpush
3. API route calls Safaricom Daraja API (Lipa Na M-Pesa Online) with STK Push request
4. Customer sees a pending modal: animated clock icon + 'Check your phone — enter your M-Pesa PIN to confirm payment'
5. Daraja API sends callback to /api/payments/mpesa/callback on success or failure
6. Convex mutation updates order status in real-time — pending modal resolves to success or retry state
7. On success: redirect to Order Confirmation page with confetti

7.2 UI States

State	UI Treatment
Initiating	Spinner + 'Sending to your phone...' — Inter 15px, Charcoal. Framer Motion pulsing ring animation.
Awaiting PIN	Animated phone illustration with vibration effect + 'Enter your M-Pesa PIN on your phone' + countdown timer (60s). Full-screen overlay modal.
Success	Green checkmark path-draw SVG animation + 'Payment Confirmed!' — redirect to success page after 1.5s delay.
Failed / Timeout	Red X animation + clear error message + 'Try Again' button + fallback 'Pay with Card' option.

8. Content & Copy Framework

8.1 Key Copy Lines

Placement	Copy
Hero Headline	*"Hello Us" — One Bond. Two Sets. Timeless Style.*
Hero Subheading	Mommy & Me Fashion | Timeless Women's Sets — Made to Order in 48 Hours
Production Badge	*Made exclusively for you. Ready in 48 hours.*
Cart Empty State	Your cart is empty — let's find your perfect set.
Order Confirmation	Your Hello Us set is being handcrafted. Ready in 48 hours — we'll WhatsApp you every step of the way.
Size Callout	Every piece is made to your exact measurements — tell us your size and we'll handle the rest.
About Hero	*Born from a mother's love. Built for the bond.*

8.2 SEO Metadata Targets

- Homepage: 'Matching Mother Daughter Dresses Kenya | Shop Hellous — Hello Us'
- Collections: 'Mommy and Me Matching Sets Kenya | Linen Dresses Made to Order'
- Product pages: '[Product Name] — Matching Linen Dress Set Kenya | Hello Us'
- About: 'Our Story | Shop Hellous — Handcrafted Kenyan Mother Daughter Fashion'

9. Pre-Launch Checklist

Item	Done	Owner
